1. INTRODUCTION:

1.1 OVERVIEW:

The Website is Build on word press local host which is then migrated to Godaddy for hosting. We had exported it by using all in one WP migration plugin from word press local to godaddy. Word press has many themes, templates, plugins which will help us to build our website. I used Elementor Plugin for building my website and my theme was education. I have built a website which is about the education for people who will not encourage for studies and for people who don't know the importance of Education.
The Website have some pages like Home, About Us, Services, Contact Us.
Finally, I say this website helps people to understand the value of education and literacy.

1.2 PURPOSE:

The people who is not aware of education. The people who will not support the education. These are like this due to lack of knowing the importance of education. We are here to know the importance od Education.The four basic purposes of education are academic (intellectual), political and civic purposes, socialization, and economic purposes. Education is ultimate way to get victory, over all and personal as well as social problems.

# 2. LITERATURE SURVEY:

2.1 EXISTING PROBLEM:

People who don't know the importance of education.
